MASTER OF ARTS
Educational Technology

ADELPHI UNIVERSITY
NEW YORK
online.adelphi.edu
EDUCATE. DESIGN. GET YOUR TECH ON.

The online Master of Arts in Educational Technology degree (M.A. in EdTech) offered through the College of Education and Health Sciences at Adelphi University is built to:

- Equip you with the right blend of hands-on training, computer programming, and knowledge about teaching and learning for a successful career in today’s educational technology landscape.
- Help you carve your own path in a growing field that offers diverse opportunities in both education and business.

Our M.A. in EdTech faculty members are passionate practitioners, researchers and educators who are committed to providing you not only with cutting-edge knowledge and skills, but also an exceptionally personalized educational experience. Though all courses are 100 percent online, the program’s structure and learning platform offer students rich opportunities for interaction with faculty and each other.

Your education culminates with a multimedia studio capstone course, in which you will develop one or more original educational resources, followed by an independent study course, in which you will pursue a topic of interest through either scholarly research or a creative, integrative educational media project.

OUR STUDENTS

The online M.A. in EdTech attracts individuals from a broad range of educational and professional backgrounds including teaching, instructional design, library science, communications, Web design, software engineering and computer science. They seek to expand and hone their knowledge and skills to meet objectives that may include:

- Entering the field
- Changing careers
- Remaining competitive in the field
- Earning a required professional credential
- Expanding career opportunities
- Revitalizing teaching career
- Obtaining higher earnings
Our proximity to New York City enables us to enlist leading EdTech pros as your guest speakers, supervisors and adjunct instructors.

CAREER OUTLOOK

Opportunities for qualified educational technology professionals can be found in these areas and more:

- Higher education
- K-12 education
- Educational services
- E-learning
- Business training and development
- Content creation
- Library sciences

Our students graduate ready to work in a variety of settings and assume roles that may include:

- Instructional designer
- Instructional technologist
- Multimedia developer
- Application developer
- Software designer
- IT coordinator
- eLearning consultant
- Curriculum development specialist
- Training specialist
- Teacher

Demand for instructional coordinators is projected to grow 11 percent from 2016 to 2026, faster than the average rate for all occupations.

—U.S. Bureau of Labor Statistics

PROGRAM BENEFITS

State-of-the-art curriculum equips you with high-demand competencies in a growing field.

You study with distinguished faculty members.

100-percent online, instructor-led courses provide you not only with convenience, but also an engaging, personalized, academically rigorous educational experience.

We have a strong job placement record for M.A. in Ed Tech graduates and you join a close-knit alumni community.

The Adelphi Faculty Center for Professional Excellence offers two paid internships to EdTech graduate students.

Our proximity to New York City enables us to enlist leading EdTech pros as your guest speakers, supervisors and adjunct instructors.
**CURRICULUM**

To ensure the program’s relevance in the real world, we built the M.A. in EdTech curriculum from the ground up with input from e-learning industry pros and academicians across disciplines. Additionally, we update our curriculum annually with special topic courses, providing students with continuous exposure to emerging trends in a rapidly evolving discipline.

The curriculum provides students with technical skills, problem-solving capabilities, and theoretical and practical knowledge about teaching and learning, and offers an array of electives and special topic courses that enable students to gain exposure to the latest innovations in areas including video games, social media and mobile learning. **ADMISSION REQUIREMENTS**

Online M.A. in Educational Technology candidates must have a bachelor’s degree from an accredited college or university. The recommended minimum GPA is 3.0 on a four-point scale, however, strong candidates who do not meet the minimum GPA are still encouraged to apply.

Flexible entrance requirements—no GRE required.

**APPLICATION MATERIALS**

In order to complete the application, all candidates must submit the following:

- Completed application
- Official transcripts for all schools attended
- Personal statement that describes your goals in pursuing graduate study in educational technology. You may choose to reflect on your meaningful experiences with digital technology and media, your expertise and interests, and how you see digital technology affecting learning now and in the future. 300 words minimum.
- Two letters of recommendation
- Current resume or CV
- $50 application fee

International Students

- In addition to the admission requirements and materials listed above, international students whose native language is not English must have a minimum TOEFL score of 80 or a minimum IELTS overall band score of 6.5.
- Please note that admission to the online M.A. in Educational Technology program does not qualify international students for an F-1 visa.

For additional details regarding application requirements, please visit online.adelphi.edu.

**TUITION AND FEES**

Cost per Credit Hour: $720
Total Tuition (32 credits): $23,040
Fees: A $200 technology fee is charged each semester.

* Tuition and fees based on 2019-20 rates. Tuition and fees subject to change. Total tuition may vary based on credits taken.

**FINANCIAL AID**

If eligible, students may take out federal and/or private education loans to cover tuition and other education-related costs. The FAFSA school code is 002666.
